I have been lucky enough throughout my career to work on a highly varied amount of Broadcast Television, including Drama, Documentaries, Children's and Entertainment, with many different and talented people.

I have 19 years experience in the industry and for the last 14 years I have been a dedicated Online Editor. I started my career as an Offline Editor and am familiar with the vast majority of the picture process at the Post Production stage. I am very precise and have a keen eye for details. I use Avid Media Composer & Avid Symphony mostly with access to Boris FX. I have had a history with Avid DS when I was doing animation and compositing jobs. I am now in the process of extensive training for DaVInci Resolve and expect to be working on it within the second half of 2026.

I am more than comfortable delivering/using the current file standard AS11 file delivery and AQC process VidCheck.
