Eben is the founder and owner of Phantom Sun, a 'pop-up' and remote post production facility based in North West England. He has worked in the broadcast industry since 1990 and has spent most of his career as an editor (offline, online, grading) and managing post production facilities, (BBC Lead Editor, Timeline North, Phantom Sun and Hound Dog Post.)

Having started out at Windmill Lane Studios in Dublin, he went on to train and work with the BBC for 18 years, gaining the highest levels of experience on the full range of BBC programming output, including, Factual, Drama, Sport, Entertainment, Children's, Documentaries, Education and Promotions.

Eben is best known for his ability to accurately judge the unique demands of each project, be they, working to a tight deadline, editing at speed, injecting visual flair, crafting pace and narrative arc, or choosing just the right sound track. He's happy working to a deadline of six months or six minutes, on his own or in a team and always remains calm, even under intense pressure.
